

# **Our Vision Statement**

*Sharing the love of Christ with each other and the wider community*

We aim to be a biblical, prayerful and Jesus-centred community who are:

Open to God  
Open to the wider community  
Open to each other  
Open to learn and grow

Our plan for 2008–2013 is a focus on evangelism – being good news to the whole community, and training and equipping members of the church community for this ministry.

## **Focus on relationships beyond the church family:**

Good news to the community  
Promoting good evangelistic events  
Promoting the use of Alpha  
Promoting Fresh Expressions of church in as much breadth as possible  
Encouraging opportunities for building relationships (with neighbours and the community) and personal faith sharing  
Investigating and researching who we are, who we know and what we do

## **Focus on development of individual relationships with God:**

Promoting personal Bible reading  
Promoting personal spiritual growth through retreat

## **Focus on our communal relationship with God:**

More people involved in worship leading  
Improving our corporate worship  
Building up and improving our corporate prayer life
